DETAILED ACTION

The following is an examiner's statement of reasons for allowance:

The limitation "an impedance component in series with the first reference region and the second reference region such that the impedance component attenuates the first electro-magnetic noise signal such that the magnitude of the second electromagnetic noise signal is less than the magnitude of the first electromagnetic noise signal" of claims 1, 12 and "reducing the electromagnetic noise by positioning an impedance component in series with the first electric reference region and a second electric reference region, the second electric reference region being characterized by a second electromagnetic noise signal that is less than the first electromagnetic noise signal" of claim 18 in combination with other limitations present is neither taught nor disclosed in the prior art of record.

Communication

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung V Ngo whose telephone number is (571) 272-1979. The examiner can normally be reached on Monday to Thursday 8:30-6:00.
